# What is the Primary Care Workforce & Training Hub?

- The hub forms part of the wider workforce hub for South Yorkshire & Bassetlaw, which also includes the Excellence Centre (SYREC) and the Faculty For Advanced Practice.
- Its main aim is to support the growth and development of a resilient primary care workforce.
- Built on the work done by the ATP

## How does it work?

- The hub has a team of clinicians and coordinators who can work with individual practices or 'place' teams.
- They can advise practice managers and clinicians about workforce initiatives available to them.
- They can also offer workforce planning advice and signpost the best available training and education.

# What does it do?

Facilitates
