

Barnsley Hospital NHS FT

Frailty SDEC Criteria

2025

Do you have a patient with frailty needing an assessment?

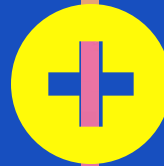

Age >65

NEWS2 score <5

Frailty Score >5

Especially if falls, confusion or dementia, reduced mobility, incontinence, not coping at home, or care home resident

Not needing other clinical pathway

e.g. Level 2/3 care, #NOF, stroke, MI needing monitored bed etc

We can take patients on trolleys as well as ambulatory patients

Call 1483, or speak to the geriatrician in ED to refer

Referral accepted 8am - 4pm Mon - Sat
