Carpal Tunnel Syndrome Surgery.

Instructions for use:

Please refer to policy for full details.

Primary Care clinicians need to complete the checklist and submit with referral via eRS /
 Secondary Care complete the checklist and file for future compliance audit.

The SY ICB will only fund Carpal Tunnel Surgery when the following criteria are met:

<i>In ordinary circumstances*, referral should not be considered unless the patient meets one or more of the following criteria.</i>	Delete as appropriate	
Severe symptoms at presentation (including sensory blunting, muscle wasting, weakness on thenar abduction or symptoms that significantly interfere with daily activities)**	Yes	No
If there is no improvement in mild-moderate symptoms after 3 months conservative management which includes nocturnal splinting used for at least 8 weeks (documentation of dates and type(s) of conservative measures is required)	Yes	No

** If clinician considers need for referral/treatment on clinical grounds outside of these criteria, please refer to the individual funding requests policy for further information. If patient meets the above criteria then prior approval is not required.*

****This criterion includes all individuals whose symptoms are severe where six months conservative management would be detrimental to the management of the condition. Evidence should be provided to demonstrate severity of symptoms.**
