

Why should I bring my medicines to hospital?

NHS

Barnsley Hospital
NHS Foundation Trust

Your medicines are **AVAILABLE** when you need them, no need to order from pharmacy

Can **SPEED** up your discharge knowing exactly which medicines you have

Avoids **CONFUSION**: you carry on with your familiar medicines and we can dispose of changed medicines

Pharmacy staff can check and **MAINTAIN** your supplies - you go home with at least 2 weeks of medicines

Helps staff **IDENTIFY** the medicines you usually take at home, even labelled weekly trays from your pharmacy.

Less **WASTAGE** of medicines and NHS money - you don't take duplicates home and throw excess away
