

Barnsley Child and Adolescent Mental Health Service (CAMHS)

Information for Referrers

About CAMHS

The service is designed to meet a wide range of mental health needs in children and young people. These needs will include emotional well-being and mental health issues as well as more complex and/or enduring mental health symptoms that are causing significant impairments in their lives.

Barnsley CAMHS is made up of a multi-disciplinary team that provides a range of evidence based interventions for children, young people and families.

Who can be referred?

All children and young people up to their 18th birthday who are resident and/or registered with a Barnsley General Practitioner (GP) can be referred to the service where:

- there are concerns about their mental health and/or psychological well-being
- and**
- where it can be demonstrated that they have received support from professionals in universal services that has not helped to make sufficient improvement to their problems.
- or**
- their problems are at a significant level that means the referrer feels they need immediate access to assessment and treatment from mental health professionals.

In addition to this, the service offers consultation, assessment and interventions for children and young people with moderate to severe learning disabilities who also have mental health, emotional and behavioural problems.

There is a dedicated pathway for Children in Care who have mental health, emotional and behavioural problems.

The service also provides a 24 hour emergency response for young people actively displaying suicidal ideation or following suicide attempts, with severe symptoms of depression (with suicidal ideation) , life threatening harm to self, harm to others as a result of a mental health concern, acute psychotic symptoms or presentation of anorexia with severe physical symptoms.

How to refer

There is a single point of access (SPA) to CAMHS. Professionals are encouraged to telephone the service to discuss referrals in the first instance on **01226 644829** Monday-Friday 9-5pm.

A referral form for our service needs to be completed and can be posted to:

Barnsley CAMHS
Child & Adolescent Unit
New Street Health Centre
Upper New Street
Barnsley, S70 1LP

Or by Fax : 01226 433194

Or via **secure email only** (i.e.nhs.net) to barnsleycamhs.referrals@nhs.net,

PLEASE NOTE: *Emailed referral forms must come from a secure address such as nhs.net.*

If the national nhs.net guidance is not adhered to it will result in a breach of Information Governance; after which the necessary governance procedures will be followed and appropriate authority informed.

Barnsley CAMHS accept emailed referrals on a completed electronic referral form (not via referral letter)

Emails to the secure email address containing subject matter other than a referral form will be returned to sender

Who can refer?

- GPs, paediatricians and other health workers e.g. public health nurse (school nursing), health visitor.
- Social workers
- Educational psychologists, Special Educational Need & Disability Team , Teachers / educational staff and SENCO's
- Youth Offending Team, Substance misuse workers and Multi Systemic Therapy Team

It is essential to meet with both the young person and parents/carers to gain consent for the referral, explain the referral process and complete initial screening. This will help to identify actual need and encourage attendance for appointments as young people and their families will fully understand the reason for referral.

Referral Guidance Barnsley CAMHS

What makes a good referral?

The more information you can provide, the better we are able to prioritise and respond. Using the CAMHS referral form details the essential information we require, however, please provide any additional information that might be useful along with the referral form.

Routine CAMHS are coloured Black and will be offered an Initial Assessment usually within 5 weeks

Urgent CAMHS are coloured RED and will be triaged within 24 hours Monday – Friday

Where other agencies are more appropriate these are coloured BLUE

The CAMHS Out of Hours service operates for Emergency referrals outside of 'office hours'.

Issue	Symptoms / presenting difficulties	Discuss with / refer to :
Anxiety, General and Social	Worrying about specific situations, Clingy, tearful, bodily symptoms.	Therapies for Anxiety, Depression & Stress (TADS) Room 14, Arcadia House, 72 Market Street, Barnsley, S70 1NS 07810697229, and or discuss with School Nurse or CAMHS SPA
	Panic attacks Severe and disabling phobias (Social and specific phobias). That have not responded to support from universal services	CAMHS
Behavioural issues <i>Poor Behaviour in one setting should be dealt with in universal services in the first instance</i>	Poor Behaviour at home only	Community Evidence Based parenting programme
	Poor behaviour at School only	School (Learning mentor etc.) Educational Psychologist
	Severe and persistent behaviour at School and home	CAMHS
Bereavement (Complex and Unresolved Grief)	Before referring to CAMHS The young person should have been given time to experience a normal grief reaction and should then be offered counselling either through school or a recognised bereavement counselling service. A referral to CAMHS should be made Where there is a prolonged grief response or where the child/ young person are experiencing significant distress following a death that has occurred in traumatic circumstances.	Explore local Bereavement counselling services, discuss with School Nurse, and family. CAMHS
Conduct Disorder	Very severe and persistent behavioural problems, at home, school and in the community, and unresponsive to parent training. If school related – preferable for school/ Educational Psychologist to make referral with relevant background information.	CAMHS

Deliberate Self Harm	Presenting with maladaptive coping strategies but less severe/frequent/recent.	Discuss with school nurse to support harm reduction, Access SPA for advice.
	Presenting with maladaptive coping strategies (e.g. self-cutting and where recent occurrence).	CAMHS Discuss case with duty team to help guide urgency
Depression and low mood <i>(Where symptoms present for at least 2 weeks)</i>	Low mood, not impacting on daily life and no risk evident (no suicidal thoughts or self-harm)	TADS as above in Anxiety
	Persistent low mood. Physical symptoms – poor sleep (or early wakening) or loss of appetite and weight Cognitive symptoms including pervasive negative thoughts Loss of interest/Social isolation/withdrawal at home and school. Suicidal thoughts without planned intent (discuss urgency of referral with team)	CAMHS
	Suicidal thoughts with planned intent REFER URGENTLY. Suicidal thoughts without planned intent (discuss urgency of referral with team) Previous attempts to end life	CAMHS : urgent priority in hours or discuss as possible CAMHS emergency Out of hours
Eating Issues	Eating Issues (Low Level) – Will only eat certain foods	Discuss with health visitor / school nurse or contact CAMHS SPA for advice
	Anorexia: evidence of self-induced weight loss and/or fear of fatness. Rapid and sustained weight loss Bulimia: Persistent binge & purge behaviour. BMI / height to weight ratio may be normal <i>* Tests to be taken prior to referral – Blood tests, full blood counts, urea & electrolytes, liver function, thyroid function & random glucose, Cholesterol, Mg, Ca, Phosphates, ECG.</i>	CAMHS will classify urgency on same day <i>*Where case is not high risk and has not been seen by GP in previous 2 weeks CAMHS will notify GP to request consultation with child in 2 days.</i>
	Height to weight ratio will be one indication of the level of priority therefore referrers must include this information on referral forms.	CAMHS: urgent priority or CAMHS and paediatric emergency. <i>*CAMHS may request consultation with GP same day.</i>
Gender Identity Disorder	Initial discussion / exploration required	LGBT Barnsley
	Strong, persistent cross-gender identification. Persistent discomfort in gender role. Above causing impairment in social, family and school functioning	CAMHS <i>*CAMHS can refer on to Tavistock if necessary after thorough assessment.</i>
Learning Disability	Mental Health, emotional and behavioural problems alongside moderate to severe Learning Disability.	CAMHS

<p>Obsessive Compulsive Disorder (OCD)</p>	<p>Repetitive intrusive thoughts, images or behaviour affecting daily life and activity, and disrupting family life. Obsessions/compulsions causing functional impairment.</p>	<p>CAMHS</p>
<p>Psychosis or suspected psychosis <i>If child over 14 years and first episode refer to early intervention in psychosis team</i></p>	<p>Active symptoms include: Paranoia, delusional beliefs & abnormal perceptions, (hearing voices & other hallucinations). Fixed, unusual ideas. Negative symptoms include deterioration in self-care & social & family functioning.</p>	<p>Requires consultation may be CAMHS or CAMHS (Urgent) or Early Intervention in Psychosis Team</p>
