“Offer”

- An integrated & highly skilled team, who will deliver:-
 - Evidence based advice & guidance
 - CP practice team
 - Practice Delivery Agreement – Meds Optimisation targets
 - QoF targets
 - Meeting National Specification – targets?
 - Maximising quality of the shared medication record
 - Neighbourhood PCN planning and delivery
 - Delivery of any locally agreed “calls to action”

National Specification

Structured Medication Reviews & Optimisation (from April 2020)

- over-medication of patients, including inappropriate use of antibiotics, withdrawing medicines no longer needed and support medicines optimisation more widely.
- It will also focus on priority groups, including (but not limited to):
 - » asthma and COPD patients;
 - » the Stop Over Medication for People with learning disabilities or autism programme (STOMP);
 - » frail elderly; care home residents; and patients with complex needs, taking large numbers of different medications.

Population Health

- Maintain targeted programme approach to baseline, planning ,delivering and measuring outcomes for MM and MO improvements
- Eclipse “Vista” platform imminent – additional tool for planning and delivery – platform incorporates secondary care and community data and will allow practices and neighbourhoods to risk stratify registered patients

Other Opportunities

- Community Pharmacy Contract 2019/20 to 2023/24
 - Supporting delivery of NHS LT Plan
 - Clinical Quality Focus
 - New services to support patients
- Integrated Hospital Care
