CDEP is designed to be done in bite-sized chunks'

Just log in when you can and do a few competencies within a topic – one competency can take as little a minute to do. Once a competency is finished, it will automatically be saved, so none of your work will be lost if you dip in and out!

How long will it take me to complete a topic?

Each topic has a different number of competencies (depending on the topic and your chosen CDEP level). So the length of time differs from 15 mins (Hospital Hypos) to 2 hours (Injectable Therapies), but most topics take around 1-2 hours to complete.

What CDEP level should I register at?

CDEP has 4 levels, as per the UK diabetes competency framework:

CORE

The minimum level for staff who have any contact with people living with diabetes. Ideal for *HcAs, receptionists, students, psychologists, care workers etc.*

INTERMEDIATE

For registered staff who are not primarily responsible for supporting people manage their diabetes, but their role may impact on care e.g. *practice nurses, GPs, paramedics, ward/care home/mental health/prison staff, HcAs trained to deliver enhanced diabetes care, podiatrists (not working in diabetes foot clinics), physiotherapists, midwives, pharmacists, etc.*

DIABETES SPECIALIST

Staff responsible for delivering the majority of diabetes care or for staff starting to specialise in supporting complex diabetes care e.g. *practice nurse, GPs, dietitians, junior DSNs, diabetes link nurses, diabetes podiatrists / midwives / pharmacists, etc.*

DIABETES EXPERT

Staff delivering intensive care to complex diabetes cases or delivering diabetes specialist support to other staff.

Once you have chosen a level, CDEP automatically offers you the appropriate training. Don't worry if you want to change your level, you can easily update it in "[my account](#)" on the website.

Where should I start?

You may start with any topic, but if in doubt, start with one of your essential topics for your role.

Do I have to complete all the topics to generate a certificate of competency?

No, each topic generates its own certificate, reflection form and CDEP rewards!

Reflection

Your topic evaluation, completed to generate your certificate, automatically generates a reflection form which you can submit for revalidation and appraisals.

Clinical Practice Feedback

Need to collect evidence of the level of your diabetes care from your patients, clients, their carers or your peers? You can invite their structured feedback via CDEP's secure clinical feedback portal.
