MACMILLAN
CANCER SUPPORT

Achieving World class cancer outcomes

PREVENTION

- Aim to reduce adult smoking to less than 13% by 2020
- New tobacco control plan
- National obesity plan

EARLY DIAGNOSIS

- Faster investigation
- Implement new NICE guidelines
- More diagnostic capacity
- Definitive diagnosis in 4 weeks

PATIENT EXPERIENCE

- Electronic access to treatment records
- Access to clinical nurse specialists
- Cancer Patient Experience Survey continued
- Metrics used to drive improvement

ACHIEVING WORLD-CLASS CANCER OUTCOMES

A strategy for England 2015 – 2020

Report of the independent  Cancer Taskforce

More information at bit.ly/cancerstrategy2015

LIVING WITH AND BEYOND CANCER

- Recovery package
- Tailored follow-up
- Measure and incentivise quality of life

MODERNISING CANCER SERVICES

- Fix workforce deficits
- Update radiotherapy machines
- Streamline access to drugs
- Support research

COMMISSIONING, ACCOUNTABILITY AND PROVISION

- Guidance on commissioning
- New improvement alliances
- New models of care

**CANCER
DOESN'T ALWAYS
STOP WHEN
TREATMENT
ENDS**

How can we ensure everyone gets the support they need to live well with and beyond cancer?

LWABC project in Barnsley

- To improve the patient journey along the whole cancer pathway
- To improve quality of life
- Shared care approach with patient empowerment/education key
- Earlier signposting of patients to places able to help or support needs

Recovery Package

- eHNA within secondary care
- Leading onto holistic, individualised care plans which are sent to Primary Care via ICE, therefore in effect travelling with the patient
- Treatment summaries sent to GP's to improve information sharing around the treatments undertaken and possible short & long term side effects
- Cancer Care reviews

Cancer Care Reviews

- Are shown to improve patients quality of life
- Provides a platform for ongoing holistic assessment of the patients health, wellbeing and needs throughout the cancer journey and beyond
- Due to increased survival rates can now be deemed similar to Long term condition reviews
- New template being designed locally to improve this process, based upon work done by Macmillan
- CCR should be done face to face within 6 months of diagnosis, ideally between 3-6 months

Local Information Guide

- Development of a local guide of cancer services to support patients
- Reference for Health professionals
- Local and regional services
- Live Well Barnsley- online portal

Any Questions?
