

LHC result decision tree
for Primary Care

Written by: Dr Jason Page
(Clinical Director Targeted
Lung Health Checks,
Medical Director
Rotherham Place) 20.7.23
(review date 20.7.24)

Is there a screening mdt
result document?

Yes

No

This means all the
significant secondary care
findings have been dealt
with as noted

Lung Nodules on the CT
result?

Yes

No

All nodules automatically
followed up

Findings such as Coronary
Artery Calcification or
emphysema (should be
notified with "G" letters)?

Follow advice- see
additional suggested
pathways
