LMC Update

Presented by Dr Clare Bannon CEO BARNSLEY LMC

Tirzepatide

- Are practices engaging with this?
- Cohorts continue to expand for this

- Prescribing of Semaglutide for Pts with CVD and a BMI over 27 would actually require over £1billion in funding.

- Risk of being added to QOF

List Validation –FP69

- Changes to contract reducing time from FP69 to deduction reduced to 3 months
- Push by NHSE to identify patients that have potentially left the country
- 6million patient disparity between ONS and registered lists

Barnsley figures

- **-2131 patients**
- **-£398,000 funding lost to Barnsley wide variation across practices.**

Proactive care scheme

- £126 per patient
- For proactive care plans
- Money through PCNS
- Total pot 5% of weighted population

1. 1239461000000102 Proactive care needs assessment (procedure), and
2. 802321000000106 Care plan agreed (finding) within two working days of the Proactive care needs assessment

Collective Action

- **May (Data Sharing):** Practices stopped entering new voluntary data-sharing agreements (DSAs)

- **June (Prescribing Software):** Practices switched off non-contractual medicines optimisation software to focus on acute prescribing choices.

- **July (Shared Care):** Practices halted new shared care arrangements

- **August (Patient Awareness):** Practices sent campaign materials.

- **September:** Escalation was paused following leadership changes to allow time for new talks with Department of Health and Social Care (DHSC) ministers.

England

Collective Action

- Currently on a Pause
- Clear ask for increased funding and mitigation of limitless online demand
- Whilst have agreed to Bilateral negotiations, we have asked for return of list cleansing funding and increase going into negotiations
- Need to be ready to go back into collective action. Must take an opportunity to stop the constant shift of work
- Detailed guidance on stopping poorly funded work
- Handing back shared care, MGUS and PSAs-mgive notice
- Marches roadshows
- Plan B and private services

Local issues

- Radiology meeting
- Re-entering of Name and GMC
- Problems with i-refer
- ARRS and other non medical staff issues with not being able to request
- Contract breeches please report meeting with trust soon
- SPOA, no new pathways agreed A&G does not have to be accepted.

Thank you for listening.
