Transformation Manager for Long Term Conditions, Cancer
and End of Life/Palliative Care and Diagnostics*

Introduction

This session will cover :

- Why it can help you with your work
- How does it apply to you?
- What is a Virtual Clinic Group Consultations?
- Trials in Barnsley
- Opportunity to ask questions and share thoughts/ideas

Video – So what is it ?

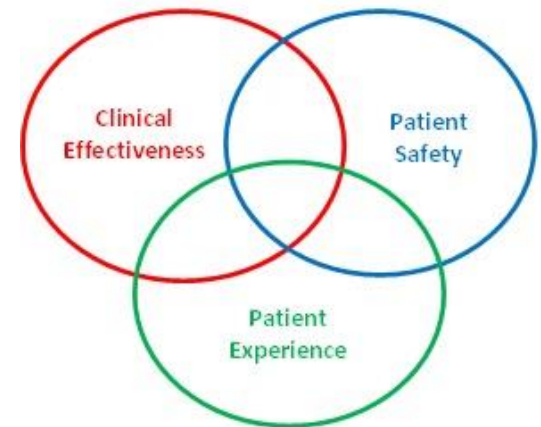

<https://www.youtube.com/watch?v=5Av9gBX2KwI&feature=youtu.be>

How does it apply to you and Why do it

- Works in other places
- Patient like it
- Relates to Nursing fraternity leadership skills and role
- Strong self care element

The Key to Quality

PDA

- What is the ask?

- Video group consultation for chronic disease management pilots to run in Q2 (two practices).
- A development session about running a virtual group consultation will be provided to practices via the PCN in conjunction with the CCG.
- By Q4 all practices to have run at least one Group Consultation session with patients (either face-to face or virtual) to manage chronic disease management backlogs.

Description of Trials

- Lundwood Medical Centre
- Apollo Court Medical Centre

What support you get ?

- Training Pack
- Consent video and details for patients
- All the documentation you will need
- Peer support
- Evaluation details
- Support from PCN Managers

What do Patients Say?

- [Croydon - Patient Reflections with Georgina Craig - YouTube](#)

Using Video Group Consultations

- What do Practitioners think?
