

Lung Cancer Screening – a quick reference guide

- Lung Cancer Screening is **now in Sheffield** and will make its way across the city until March 2026. **It will take time to reach everyone**
- Eligibility criteria for Lung Cancer Screening: **55-74 years old, current or former smoker, registered with GP**
- Lung Cancer Screening is in two parts, and not everyone will need both parts:
 - 1) a 30-minute Lung Health Check call by a Respiratory Nurse to determine risk
 - 2) **only higher-risk patients will be referred for a chest scan** in a mobile scanning unit
- Follow-up scans continue to take place across South Yorkshire and Bassetlaw, and **patients will be contacted when scan appointments are due**
- General appointment / results queries should be signposted to **Xyla** on **0330 236 8484** or xyla.ctlhadmin@nhs.net
- The LCS team's email address is syicb-doncaster.sybtlhc@nhs.net
